PROFESSIONAL SUMMARY

Product Designer with 3+ years of experience in UX/UI design for B2B SaaS and AI products. I turn complex ideas into simple, easy-to-use designs that help users and teams make better decisions. I work closely with marketing and customer support to improve user experience, reduce churn and bounce rates, and increase click-through rates. I also create marketing designs, graphics, and videos to support the product.

SKILLS

Design: UX Design, UI Design, Interaction Design, Wireframing & Prototyping, Design Systems, Responsive Web Design

Research & Strategy: User Research, Usability Testing, User-Centered Design (UCD), Customer Journey Mapping, Competitive Analysis, Product Strategy, MVP Development, User Acquisition & Activation

Front-End: HTML, CSS

Tools: Figma, Framer, Webflow, Adobe Creative Cloud, CapCut, Jitter, Blender, Claude, ChatGPT, Lovable

WORK EXPERIENCE

GoZen Technologies | Product Designer 04/2024 - Present

- **Website Revamp**: Redesigned the landing page flow, increasing conversion from **12% to 22% (+83%)** and reducing average signup time by **37.5%**
- **DeepAgent:** Designed an AI agent builder enabling businesses to create and deploy custom AI agents for Sales, Support, Marketing, and eCommerce
- **Product Demo Video:** Crafted an end-to-end product demo video for GoZen DeepAgent, improving product storytelling and driving **100+ demo requests** within 30 days of launch
- **HyperReach.AI:** Increased **signups by 30%** and **purchase conversions by 10%** by designing a user-centric landing page for HyperReach.AI aligned with brand strategy
- **Platform Growth:** Achieved **40% increase** in overall platform engagement in 5 months by planning and launching four new key features

GoZen Technologies | UX/UI Designer 04/2023 - 04/2024

- **GoZen Growth:** Redesigned a major product module (Email Accounts) across 10+ screens
- Worked closely with engineers & product managers to design intuitive, conversion-focused features across 3+ products with interactive prototypes
- Created marketing creatives (graphics and videos) that supported product promotion and contributed to increased user engagement
